CONFERENCE NAME

"1st International Conference on Advanced Business & Social Sciences (ICABSS-2016), Bali, Indonesia"

CONFERENCE CHAIR

Prof. Piet Kommers, UNESCO professor of Learning Technologies, University of Twente and Utrecht University, The Netherlands.

**PREFACE FROM THE
CONFERENCE CHAIR**

The Asia Pacific Institute of Advanced Research (APIAR) is a private, trust-based, institute which seeks to bridge the gap between the academy and industry in the Asia-Pacific region. This region will be the dominate producer of knowledge on a global scale in the coming decades and the institute seeks to link this knowledge production with applied applications for business and industry in turn. The institute has commenced with the ambitious aim of being the preeminent institution that links research with business in four disciplinary areas: Business, Education, Information Technology and the Social Sciences. The institution is based in Australia, having as its objective the gathering together the diversity in advance research in these four domains via an open sharing network. This network offers the opportunity for academics to share knowledge across disciplines and anticipate to innovative sectors like management, business and industry.

As conference chair it is my goal to bridge academic, societal and economic perspectives. Rather than the top-down approach from research into applications and dissemination, we face the need to conceive solutions for large-scale challenges of to-morrow. This conference targets the definition of platforms for public/private ventures. The language of the various stake-holders may be different, however the structure of perceived roadblocks and solutions will be convertible. The envisioned platforms can reach out from the academy to business, presenting innovative ideas that may well have ready applications for the private sector. The institute seeks to offer logistic support so as to enhance knowledge dissemination across the region and the globe. To achieve this laudable objective the institute offers training in research epistemology and organizational practices as well as organizing conferences.

As Chair of the 1st International Conference on Advanced Business and Social Sciences in Bali, Indonesia, I predict we have prosperous chemistry in mindset, intellect and social ambition. The new Asia Pacific Institute of Advanced Research will show its uniqueness and vigilance in traversing academic, applied and implementation disciplines. I look forward to share our intuitions and social networks. Please feel welcome at the venue in the marvelous premises of the Neo Kuta Hotel, Bali, Indonesia.
