'Asia Pacific Handbook of Contemporary Research' is a thorough collection of academic research on different areas. Please submit your book chapter to be included in the volume, 2. Details can be found on our website.

We invite you all to participate in our future conferences where you can :

- 1 **Strengthen your professional ties:** this may lead to publications and job opportunities – an invaluable opportunity for post-PhD professionals.
- 2 **Receive feedback and constructive critique on your ideas:** benefit from the audience engaging with your content rather than focusing on your punctuation and references.
- 3 **Refine your communication skills:** move from your "isolating" research experience to a more collaborative and exchange of perspectives.
- 4 **Participate in our conference and publish your research** directly through the conference proceedings and journals. Don't miss this great opportunity to get your work out there!

All submitted papers will be peer reviewed and published in the conference proceeding to promote the prominent (and emerging) voices within your field of research.
